Avoid fixed-height containers with overflow: hidden for text content. Use min-height or allow containers to grow.

MEDIUM Content clipped by 143px when text spacing is applied per WCAG 1.4.12. Text may be hidden when users adjust spacing for readability. WCAG 1.4.12

Page: / WCAG 1.4.12

Element:

```
<div class="multisite-post-image"><img decoding="async" width="450" height="600" src="https://www.honolulu.gov/wp-content/uploads/sites/29/2026/04/WGSL041026-450x600.jpeg" class="multisite-post-thumbn
```

SONDE FIX PLAN

Avoid fixed-height containers with overflow: hidden for text content. Use min-height or allow containers to grow.

MEDIUM Element overflows viewport by 1199px at 320px width. WCAG 1.4.10

Page: / WCAG 1.4.10

Element:

```
<a aria-expanded="false" class="elementor-item menu-link has-submenu" tabindex="-1" id="sm-17759013467936648-3" aria-haspopup="true" aria-controls="sm-17759013467936648-4">Agencies<span role="applicat
```

SONDE FIX PLAN

Set max-width: 100% or use overflow-wrap to prevent horizontal overflow.

MEDIUM Page requires horizontal scrolling at 320px width (3px overflow). Content should reflow without horizontal scrolling at this width. WCAG 1.4.10

Page: / WCAG 1.4.10

Element:

```
<html>
```

SONDE FIX PLAN

Use responsive CSS (max-width, flex-wrap, media queries) to ensure content reflows at narrow widths.

MEDIUM Element overflows viewport by 1199px at 320px width. WCAG 1.4.10

Page: / WCAG 1.4.10

Element:

```

Methodology

The Sonde Score is a universal 0–1000 compliance index — think of it like a credit score for accessibility. Each finding is weighted by its impact on human access: a keyboard trap (critical) counts far more than a best-practice suggestion (low). The raw penalty is normalized per page so scores are comparable across sites of any size. A harmonic curve ensures every site gets a meaningful score — no zeros, no false perfection.

```
Score = round(1000 × S / (S + P/N))
```

where S = sensitivity (750), P = Σ(weight × count), N = pages scanned

TIER	WEIGHT	EXAMPLES
Critical	10	Keyboard traps, missing page language
High	3	Missing alt text, insufficient contrast
Medium	1	Heading hierarchy, unclear link purpose
Low	0.25	Best-practice suggestions

The Sonde Score is a living standard (v0.1). We're building it in the open because accessibility is too important for closed-door decisions. Your expertise makes it better.

Enter Mission Control

Review raw findings data, track changes between scans, and contribute to Sonde's open methodology.

View Findings Data | Track Changes | Nominate a Site | Report a Scanning Issue

---

This report is a health check, not a verdict. Every website has room to improve.

Disclaimer: This report presents the results of automated accessibility analysis and is provided free of charge, as-is, without warranty of any kind. Findings are generated by software, not by human accessibility experts, and may contain errors or omissions. Automated testing can detect approximately 30–40% of accessibility issues; manual expert evaluation is recommended for complete conformance assessment. Scores reflect algorithmic analysis under a published methodology open to public review—they are not legal determinations of compliance. Results reflect the state of the website at the time of scanning and may change as the site is updated. Nothing in this report constitutes legal advice. Sonde assumes no liability for decisions made based on these results.
