Add a non-color visual indicator to links: underline (text-decoration: underline), border-bottom, increased font-weight, or a visible icon. The indicator must be present in the default state, not just on hover.

MEDIUM

The same link functionality is identified as "Live" on https://fargond.gov/ and "Search" on https://fargond.gov/live. Components with the same function should use consistent names within the same locale.

WCAG 3.2.4

SONDE FIX PLAN

Use the same accessible name for repeated components that perform the same function within a locale. Localized names may differ across locales, but each locale should be internally consistent.

MEDIUM

The same link functionality is identified as "Access TV ›" on https://fargond.gov/ and "Search" on https://fargond.gov/live/access-tv. Components with the same function should use consistent names within the same locale.

SONDE FIX PLAN

Apply `min-block-size: var(--sonde-target-size-min)` (or use `.sonde-responsive-toolbar` which already enforces it on its interactive descendants).

MEDIUM

Content clipped by 40px when text spacing is applied per WCAG 1.4.12. Text may be hidden when users adjust spacing for readability.

SONDE FIX PLAN

Avoid fixed-height containers with overflow: hidden for text content. Use min-height or allow containers to grow.

MEDIUM

Interactive control "input.sr-only" is only 40px tall at Phone SE. Sonde responsive contract enforces `--sonde-target-size-min` (44px) on touch tiers.

Methodology

The Sonde Score is a universal 0–1000 compliance index — think of it like a credit score for accessibility. Each finding is weighted by its impact on human access: a keyboard trap (critical) counts far more than a best-practice suggestion (low). The raw penalty is normalized per page so scores are comparable across sites of any size. A harmonic curve ensures every site gets a meaningful score — no zeros, no false perfection.

```
Score = round(1000 × S / (S + P/N))
```

where S = sensitivity (750), P = Σ(weight × count), N = pages scanned

TIER	WEIGHT	EXAMPLES
Critical	10	Keyboard traps, missing page language
High	3	Missing alt text, insufficient contrast
Medium	1	Heading hierarchy, unclear link purpose
Low	0.25	Best-practice suggestions

The Sonde Score is a living standard (v0.1). We're building it in the open because accessibility is too important for closed-door decisions. Your expertise makes it better.
